

Instruction to users of AKTIV Cabins

Extraordinary measures aimed at preventing spread of coronavirus (COVID-19) pandemic

The following is implemented as obligatory for all users of AKTIV Cabins:

- People who are sick should stay at home.
 - Do not visit the cabins if you are sick or experiencing symptoms
 - Do not visit the cabins if you are required for home quarantine or isolation
 - If you, or any of the guests you have had in the cabin, suspect that you are infected, immediately notify the cabin group so that we can act to prevent the virus to spread to other / new users of the cabin
- Good hand hygiene, cough etiquette and proper cleaning of the cabins is important, user are obliged to follow the cleaning instruction below.

Cleaning instruction for the cabin:

- The cabin should be cleaned by drying dust, removing stains, vacuuming and washing
- Wash all touch points in the cabin on departure - door handles, remote control, kitchen handles, etc. - can be washed with either a light chlorine mixture and / or chlorine Mixture spray, antibac or a slightly damp microfiber cloth. NB Remember to change the wipe paper and / or cloth frequently as the infection can spread with the cloth / wipe paper.
- The dishwasher must only be used on the warm program, above 60 degrees, and left emptied after your stay.
- Cloths / towels in the cabins must be washed at a minimum of 60 degrees
- Wash the refrigerator and freezer with chlorine and cloth. Remember to wash the refrigerator and freezer door handle.
- Wash the bath thoroughly
Preferably use a light chlorine mixture and / or chlorine spray. Let the light chlorine mixture work approx. 1 minute before washing away. Start with the sink and wash well around the sink mixer tap, making sure all grease stains are gone with a microfiber cloth and or paper towel
- Trash should be thrown in the designated location for the cabin
